

An Introduction to laying the cards in 7 steps
 Blaue Eule or Brittas Cards

Understanding and interpreting the cards

There is one thing I will keep repeating over and over again.

Do not panic!

There is no need to put yourself under any stress or pressure at all!

Keep calm so you can walk down this long and winding road step by step.

At the end of this course you will be astonished at how quickly and effortlessly you will have achieved the basic knowledge needed for your new skill.

I have tried to keep my instructions as precise and easy to follow as possible.

There might of course come a time when you seem to see less and sometimes even nothing at all in your cards.

***In the beginning this is normal.
 This happens from time to time.***

Just keep on trying and remember:

Our 4 most important steps are.....

The meaning of the 36 cards

1. Rider

news, message,
conversation
(love, secret, clever...)

2. Clover leaf

small happiness, luck,
lucky or happy ending

3. Ship or boat

small or short journey
within your local area or
country

.....

The first step to interpreting the cards is your inner attitude.

Relax, sit back in a comfortable chair and take a few deep breaths before you start.

You can meditate for a while if you like.....

Shuffling and laying the cards

Shuffle the cards until it feels right for you, then lay them on the table (or whatever kind of surface you may use), picture side down.
Spread them out in whichever shape you like, using both hands.

If you are a beginner, it is useful not to use more than two cards at once, all other ways will only lead to confusion and slow down your learning process.

.....

Do not worry if you cannot remember the meanings by heart, this will take a while.

*Always pay particular attention to the
Personality Cards (PC)!*

Example:

You have picked card **no 25 Ring** -marriage or relationship.
Figure out what exactly you want to know about it. Your subconscious already knows the answer!

Your question could be

What is this card telling me?

Now pick another card. In our example this is **no 2 Clover leaf** - small happiness.

Let us now combine these two cards

no 25 Ring	+	no 2 Clover leaf
Marriage		small happiness
relationship		

- *Your relationship (married or not) is making you happy.*

A new exercise:.....

Negative Cards

no 8 Rat
sickness

no 11 Rod
trouble,
quarrel,
sadness

no 12 Birds
small,
passing
troubles

no 23 Rat
loss,
fear,
illness

Let us now practise with the negative cards

.....

The Present Situation

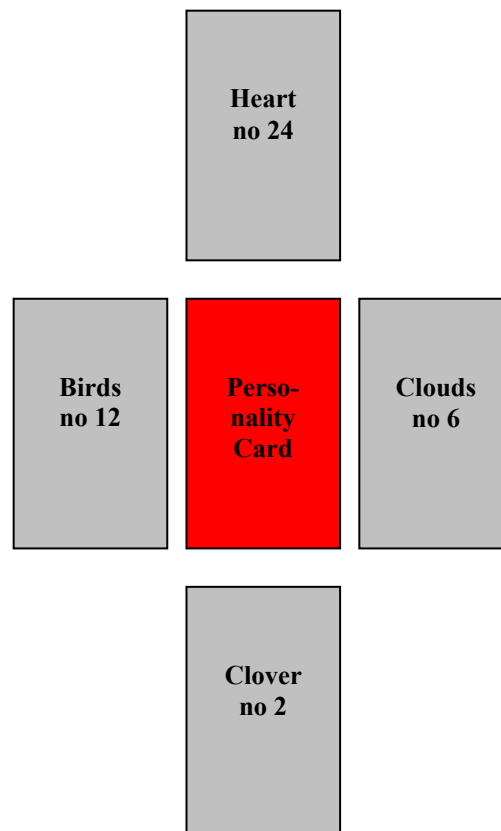

Let us now practise the present situation:

This technique will provide a insight into the Questioner's current situation and their problems and troubles.

Another example:

Please take

Shuffle the cards at least seven times while thinking about the question you would like to ask. Try to keep the question as precise as possible. Subconsciously you already know the answer!

For example:.....

From me to you

Take your time.

Choose a calm environment and take one step at a time. This will help you understand the real meanings of you cards.

As for combining and the so-called "combinations" of three or more cards: make sure you practise every day, even if it is just for a couple of minutes.

Let your intuition flow. Be open minded.

If your cards tell you something, which does not seem to make sense at the time of laying them, write it down.

Keep checking with your list to make sure you have got the meaning right.

You will certainly start by laying the Grand Tableau for yourself only as there is nobody you know better than yourself.

This will make the whole process much easier for you and help you understand your own problems better. Please note that it is never easy to be honest to yourself in a situation like that. Just keep trying.

Do not let yourself be put off by misinterpretations, they will appear less frequently as you become more advanced.....

*Another example regarding the same question:
Does my partner really love me?*

This time the card happens to be **no 17 Stork**, change.

This will arouse a number of questions at once:.....

You will of course know by now that this card resembles **unclarity** or even **obscurity**.

The Clouds at the end of a line of Interpretation mean that:

no 26 Book

no 33 Key *Power, work and activities*

no 33 Key in combination with

no 24 Heart or **no 30 Lilly**
